IN THE REALM OF MUSIC

San Carlo Company Presents Destino: "Thursday instince, "The Tales of Hoffman;" evening, "Aida; a Jovian Tosca in Anna Fitziu.

A Jovian Tosca was the principal attraction of the second performance of the San Carlo Opera Company at the Century last night. Anna Pitzau. guest star, was a beautiful picture to behold in rainbow hues or striking carise and an equally beautiful voice to hear. In fact, the audience, mearly as large as at the opening night, was we busy filling its eyes and cars that the dramatic power of her Tosca passed comparatively unnoticed, atthough she gave a strong character-ization of the unfortunate songstress

Mario Valle's Scarpla, though not quite so finished, was also vivid, and he did much to add to the intensity of the second act. Not only did he meet his match in Miss Fitziu vocally. but he nearly lost the wreatling bout with the stalwart Tosca some time triple-plate dinner knives in his silk waistcoat, thus ending the machina-

Guido Ciccolini was a trim, neat Mario, a pleasing contrast to the "Babe" Ruth type of tener. But the slimness of his physique reached to his voice and he never rose to the demands of his role. Some of the minor singers heard the opening night were heard again to better advan-tage, especially Natale Cervi, as the eccentule sacristân; Bietro de Blass, as the fugitive Casare: Francesco Curci, as the police sergeant, and Anita Klinova, as a shepherd boy. The chorus, in its few opportunities, sang well, and Carlo Peroni held the orchestra better in hand, so far as volume is concerned, than at Mon-

day's performance, Vincente Ballistor, in "Rigoletto," is to-night's opers. The schedule for the second week is: Monday, "Caval-leria" and "I Pagliacci;" Tuesday, isria" and "I Pagliacci;" Tuesday, "Boheme:" Wednesday, "Il Forza del Friday, "Lucia di Lammermoor;" Saturday matinee, "Madame Butterfly;"

NOONAN'S LEMON CREAM

Keep Your Own Cow

Modern food science gives you a safe, sure, ever-ready milk supply-a convenient, economical cow in the pantry.

The Van Camp Condensers send to your home pure, rich, safe milk, just as it comes from the cow except that half the water has been evaporated.

Add this water and you have fresh, rich milk-use it without water for cream. Always ready, always sweet, no waste and much cheaper.

VAN CAMP'S MILK

ASK YOUR GROCER

Ten Days Free To show you the results

The coupen will bring you a 10-Day Tube of Pepsodent. Mail it now, for this test will be a revelation to you. You will see and feel results which have won millions to this method. And you can have them always if you will.

Why Teeth Discolor

Food and smoke stains lodge in film

A way has been found to beautify teeth, to make them whiter, cleaner, eafer. Millions now employ it. You see the results wherever you look. Countless teeth glisten which once were dim.

These effects come by combating film. They are coming to careful people the world over, largely through dental advice. If you don't know this new-day method, we urge you to make this test.

Film makes teeth dingy

You can feel on your teeth a viscous film. It clings to teeth, gets between the teeth and stays. The ordinary tooth paste cannot effectively combat it. So brushing teeth in old ways leaves much of that film intact.

Film absorbs stains from food, smoke, etc. Then it forms dingy coats. Tartar is based on film. That is why teeth lose their

Film also holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decays Germs breed by millions in it. They,

with tartar, are the chief cause of pyorrhea. Thus most tooth troubles are now traced to film. Under old brushing methods, those troubles constantly increased. Nearly everybody suffered.

Now ways to fight film

Dental science, after long research, has found two ways to fight film. One acts to curdle film, one to remove it. Thus the film day by day combated, and without using

Able authorities have amply proved these methods. Now leading dentists everywhere advise them. Careful people of some fifty nations now enjoy the benefits.

A new-type tooth paste has been created, based on modern research. The name is Pepsodent. These two great film combat-ants are embodied in it for daily application.

Other essentials

Modern research also proves that other effects are essential, and Pepsodent brings.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth, which may otherwise ferment and form acids.

It multiplies the alkalinity of the saliva. That is there to neutralize the acids which cause decay.

Old-time tooth pastes, based on soap and chalk, decreased these vital factors. Pepsodent, with every use, gives manifold power, to these tooth-protecting forces in the It also polishes teeth so film less easily

In all these ways, Pepsodent is fast inaugurating a new dental era.

Delightful results in a week

The results of Pepsodent are so quick and apparent that a very short test reveals them. One week will generally show effects amazing and delightful.

Those effects will be convincing. You will realize that you need them, and that your children need them. They mean that the great tooth enemies are now effectively

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the vis-cous film. See how teeth whiten as the film-costs dis-

Then decide by what you see and feel, by the results that old ways never brought. This is too important to neglect. Cut out the coupon now.

The New-Day Dentifrice

Made to bring five new effects which modern research proves essential. Now advised by leading dentists the world over. All druggiets supply the large tubes.
